The curriculum Nutritional Medicine targets physicians and specialists in nutritional medicine, pharmacists, dietitians, nursing staff, food scientists/technologists and researchers. The goal of the curriculum is 3-fold: 1) Sparking interest and enthusiasm, 2) Transferring knowledge, 3) Fostering exchange and collaborations

Rules

- Login with your full name and enable your camera to identify yourself
- Keep your microphone OFF throughout the session
(exception: asking questions)
- Use the Raise Hand feature or chat to signify the host/presenter that you have a question
- Copyright of content: Do not take pictures or screenshots

Please note that the Curriculum is accredited by GESKES and can be assigned to the CAS in Clinical Nutrition. For confirmation of your attendance please contact direktionsoffice.udem@insel.ch
